## powerslot brake kit

I purchased the powerslot big brakekit/axxis pads on aug 31, order #00000306. I haven't recieved my order yet, can you give me an update or a tracking #. Getting anxious because my current pads are getting rather low, and I don't want to invest any unnesessary funds.

I propose this solution to my brake problem. Instead of sending me the brakes. Can you do a instore credit and send me:  
KYB-AGX Shocks and Struts Combo Pack - \$420  
Zex Spark Plugs - Set of 4 - \$20  
CLUB3G.COM Type: Single  
Colors: 121\_Metallic\_Gunmetal (+\$1.00) \$6.50  
shipping- USPS Priority Mail (\$53.90) - 1 - 3 Days  
total - \$500.40

I only lose \$3.30 + my time, but all will be redeemed and forgiven because shit happens. and when shit happens instore credit is the cure-all.

Here is the deal, I will be receiveing both the brake system and kyb-agx in stock by the end of next week. I will let you make the choice on what you would like to do, or which ever comes in first and is able to ship first we can do it that way, just let me know what you prefer. Sorry for all the delays hope this works out better in the future.

Thanks,  
Bobbi

I would prefer the: If you would honor this swap I will be grateful. I first ordered the larger brake set with intentions of going F/I, but none of the local shops provide the services I'd need. Its driven daily so I can't afford to part with her for extended periods out of town. So F/I out the window for now but looks aren't. Plus I'll be able to brag to everyone about how tearstone has the best customer service in the world..... ;)

I recieved the spark plugs the other day, so far so good still no agx's yet but thanks for letting me switch. I'll forget the entire- month later thing soon as the agx's arrive. :laugh: you guys should get some of the polished fuel doors i'd love to find one of them.

The saga continues. Today I recieved the kyb-agx front struts, but no rear shocks. Maybe they were shipped on different days, or maybe they were lost in the abyss of army mail rooms. If at all possible I would like a tracking # or comfort that there on the way.
